Part III EXAMINER'S REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: The present invention of a wide range repair clamp for repair of pipes is deemed to be an unobvious improvement over the prior art of record and specifically over the clamp shown in fig. 6 of U.S. patent 5,271,648. The repair clamp includes a metal clamping band, an inner sealing sleeve, profile strips and screw fasteners. The band and sleeve are placed over a pipe in need of repair while the fasteners extend through the strips and the ends of the band in order to tighten the band around the pipe and to seal and repair the pipe. The improvement includes fabricating both ends of the clamping band to form a hollow shape having a shape including a flat base, a wedge section and a convex rounded section. The hollow end shapes are situated such that narrow edges of the wedge sections are in contact with each other in order to form a triangularly shaped space between the formed ends.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Nicholson whose telephone number is (703) 308-0829. The examiner can normally be reached on Tuesdays thru Fridays from 7:30 to 6:00 .
